Award determination will be based on the official testing and high school transcript information submitted to Miami University at the time of application.

Miami University merit scholarships are highly competitive and, thus, not guaranteed.

Applicants not meeting the merit scholarship criteria will be considered for a full range of merit and need-based scholarships ranging up to full tuition annually. Scholarships and award amounts may be determined by additional factors including diversity, audition, portfolio, intended area of interest, and athletic ability.

Competitive Admission Requirements • UAH has a rolling admissions process with no official admissions deadlines. However, prospective students currently attending high school should apply for admission during the fall semester of their senior year in high school. Tentative admission will be granted on the basis of ACT or SAT scores and the high school record through the junior year. Each applicant is evaluated based on individual merit and demonstrated success in a rigorous academic environment. High school coursework, grade point average, and ACT/SAT scores are weighed heavily; however, these criteria do not constitute the entire foundation for an admission decision. An applicant with a grade point average of 2.9 and a composite score of 20 on the ACT or an equivalent SAT score, for example, is considered a strong candidate for admission.

Application Deadlines: N/A

Application Fee: \$30.00

Application Submission Options: University-specific application (ie stand alone application)

Test Optional: No

Scholarship Requirements: UAH's merit tuition scholarships recognize incoming first-time freshmen who have demonstrated superior academic achievement in high school. All merit tuition scholarships are four-year awards for fall and spring semesters, renewable each year based on full-time student status and satisfactory academic progress. No separate scholarship application is required. Students who submit an application for admission, official transcripts, and standardized test scores are automatically eligible for consideration.

The award amount is based on GPA and the highest composite ACT and/or SAT scores from one test sitting. UAH will take the highest score from any one test sitting until August 1 of the student's entering year. These scholarships begin at a 3.0 GPA and a 25 ACT/1200 SAT score. Visit uah.edu/scholarships to view the Merit Tuition Scholarship grid.
