

Minimum Requirements for Guaranteed Admission to Some State/Local Schools

<u>School</u>	<u>ACT Score</u>	<u>GPA</u>
Bellarmine	21	2.5
Campbellsville	19	2.0
Eastern (EKU)	18	2.0
Georgetown	19	2.5
Indiana (IUS)	19	2.0
Kentucky (UK)	Varies	Varies
KY State (KSU)	18	2.5
Louisville (UL)	20	2.5
Morehead	18	3.0
Murray	18	3.0
Northern (NKU)	20	
Pikeville	19	2.0
Spalding	20	2.5
Sullivan	17	3.0
Western (WKU)	20+	2.5

University of Louisville

Do You Need a Math Placement?

All students should verify their program's Mathematics course requirements with an academic advisor from the appropriate department.

Initial Mathematics course placement is based on the student's highest ACT or SAT mathematics sub-score as listed in the table below. Students with a sub-score less than the required sub-score to place into their desired math class should take a placement exam. Students scoring 19 or above in Math are guaranteed placement in a credit bearing course.

- Students with an ACT sub-score of 0-18 (SAT 200-450) **MUST** take the KYOTE exam. This exam will place the student in MT 055, 065, Gen 104, or another credit-bearing Mathematics course.
- Students with an ACT sub-score of at least 19 (SAT at least 460), but less than the score required for their desired math class (see chart below), should take the U of L Math Placement Exam.
- Engineering students with an ACT sub-score of at least 23 (SAT at least 540) do not take the U of L Math Placement Exam.
- [Download a chart of prerequisites \(PDF\)](#) for Mathematics courses.

Mathematics Course	Math Sub-score Needed for Initial Placement		Placement Test for Possible Placement into a higher Math Course
	ACT	SAT I	
MT 055, 065, Gen 104	0 - 18	200 - 450	Must take Math COMPASS exam
Math 105 Supplemented Section	19	460-470	Take U of L Math Challenge
Math 105 Regular Section	20 - 36	480 - 800	Take U of L Math Challenge
Math 111 Supplemented Section	21 - 22	500 - 530	Take U of L Math Challenge
Math 151	21 - 36	500 - 800	Take U of L Math Challenge
Math 107, 109, 111 (Regular Section), or 112	23 - 36	540 - 800	Take U of L Math Challenge
Math 180 or 190	25 - 36	580 - 800	Take COMPASS Calculus Readiness Exam
Math 205	27 - 36	610 - 800	No additional placement required

- Most Science degrees (Chemistry, Physics, Mathematics, BS in Biology or Psychology), a BA in Economics, and all degrees in Engineering require Calculus I (Math 205 or ENGR 101)
- BS in Political Science requires Math 107 Finite Math or Math 180.
- Degrees in Business and the BA in Biology require Math 180 or Math 205.
- Degrees in Nursing require Math 111.
- The BS in Early Elementary Education requires Mathematics 151 and 152.
- Other degrees allow students to fulfill the requirement with Mathematics 105. These degrees include:
 - All degrees in the Humanities division of A&S, or in the School of Music,
 - All degrees in the College of Education and Human Development other than the BS programs leading to teacher certification.
 - All degrees in the Social Sciences division of A&S other than those listed above.Some students seeking these degrees may qualify for and should be encouraged to take a more challenging course.
